### III. Writing.

There are 4 seasons in the year: autumn, winter, summer and spring. Autumn months are September, October, November. It's wet, cool and rainy. The leaves on the trees are: yellow, red and brown. There are many apples in the garden. They are red and tasty.

Winter is after autumn. Winter months are December, January, and February. It is cold, windy and snowy. There is snow on the ground. Winter is before spring.

Spring months are: March, April and May. It is warm in spring and the trees are green.

All seasons are nice. But my favorite is summer.

Summer months are: June, July, August. It is hot in summer. There are many flowers in the parks and gardens. I love long holidays in summer.

My childhood dream has always been to become a doctor. I know the suffering of those who live in poverty and sometimes pass away due to lack of access to expensive medical care. After hearing and witnessing some unfortunate incidents of people losing their lives simply because of their financial status motivated me to choose the medical profession. I made the decision to go into medicine and help people.

I'm keenly interested in learning about subjects relating to the human body. I've always been fascinated by how doctors comprehend the illness and successfully treat patients. Biology is my all-time favorite subject. Even though pursuing a profession in medicine is not simple. I'll work tirelessly to finish my studies and acquire my dream position one day.
